**Pragmatic Approach**

In order to provide practical exposure to the students, construction site visits both inside and outside the campus have been conducted for the students. It also includes field (or) industrial visits which give better idea to students about the Civil Engineering works in the real world. Students are encouraged to undergo industrial training during their semester break in some industry of their choice. Such Industrial training provides an insight to students about real world problems and also enhances their knowledge gained in class room.
